Laptop carts bring critical information to the Point of Care in patient rooms, OR, ICU, or ER. Clinicians are faced daily with patient care decisions and need all Electronic Medical Record (EMR) information at their fingertips -- in real time and easy to use.

**Eco 1 and 2 Laptop Carts**

**Benefits**
- Made of formed machine aluminum to resist any rusts and wear
- High quality German made pneumatic piston for long life (made from same manufacturer as Porsche 911 and Mercedes E Class)
- Powder coat finish bonds with the metal for durable surface, never chipping, and can be cleaned with any chemical
- Slides on keyboard tray. Two full extensions. Stainless steel ball bearing drawer that glides.
- Laptop security lock

**Options**
- Accommodates up to 17” wide screen laptops
- Security lock-down bracket
- 100% aluminum powder coat construction
- Limited lifetime warranty on manufactured parts
- Hospital grade spiral cord
- Lithium phosphate battery for up to 15 hours of run time
- Lithium ion battery bracket
- Vital signs device mount
- Work surface with external keyboard tray
- Single or dual auto-locking drawer
- Scanner holder

**Eco 1**

**Height down position:** 29.5” - 31”

**Height up position:** 46.5” - 48”

**Footprint:** 23”

**Eco 2**
Capsa LX5 & LX10 Laptop Carts

Features

- Capsa LX Computing carts provide your choice of fully-powered platforms to mobilize your choice of fully-powered cart platforms to mobilize your chosen laptop brand
- Accommodates up to 17” wide laptop screens
- Ergonomic adjustability is simple with a host of design features including tilting keyboard and Capsa’s LifeAssist™ height adjustment
- Features antimicrobial surfaces to support your infection control problem
- Small footprint and slim profile ensure simple maneuvering throughout the facility
- Single-wheel casters promote smooth travel including (1) locking and (1) tracking caster standard
- Flexibility to configure workstations with storage drawers including 3” or 6” depths
- 24/7 Customer and technical service provide clinical and IT teams the support they deserve
- Formed steal, aluminum, heavy-duty polymer work surface
- Durable powder coat

Options

- Cartwatch™ remote management software keeps your cart fleet security managed from a single PC location
- A host of security options including basic key access or keyless PIN with auto-relock

Capsa LX5

Base dimensions: 16” x 17”
Work surface area: 19” x 22”
Work surface height: 30.5” x 47.5”

Capsa LX10

CSM Direct Laptop Cart

Features

- Antimicrobial finishes - all surfaces withstand cleaners used in hospitals
- Work surface locks in place to secure laptop
- Rounded surfaces with no sharp corners
- Heavy duty plastic coating for easy clean up
- Steering handles
  - Technology bay below the work surface has room for CPU or laptop
- Height adjustable surface for laptop allows for proper screen view
- Keyboard tray - stable, durable aluminum construction
- Right or left hand mouse surface
- Independent height adjustment
- Negative tilt
- Mouse holder
- Lift system made with durable aluminum extrusions and heavy gauge steel rollers with double sealed gas cylinder tested to 35,000 cycles
- Non-powered cart can be upgraded to power
- Wheel base - durable zinc die casting
- Small wheel base footprint allows cart to fit between beds

Accessories

Wired Barcode Scanner and Holder
Vital Monitor
Wire Basket
Clean Wipes Holder
Security Transport Cart and Assembly Heads

Transport Cart Features
Choose one of three security head assemblies to fit on the transport cart.

- Standard color is white. Other colors are available.
- Heavy gauge steel and aluminum construction
- Low center of gravity base with tough powder-coat finish
- Easy rolling 4” rubber casters
- Telescoping column with pneumatic assist for easy lifting
- 46” fully extended and 33” compressed
- Left to right sliding mouse tray
- Slide-in storage for extended life battery pack
- Easy access ring style handle for easy grab and go use
- One poly tray in handle for additional storage
- Fully adjustable 19” x 7” keyboard tray
- Removeable basket - 8”H x 10”W x 4”D
- 2-year warranty

Laptop Head Assembly

Features
- Head assembly equipped with a 120 degree back stop for laptop protection, laptop cover for theft deterrent and a compartment for power bricks and cable management
- Accomodates all laptops up to 16” wide
Security Laptop Head / Battery

Features

- The battery provides 153 Watt-Hours of power for up to 8 hours
- Powers laptops and tablets that use 18 to 21 volt chargers
- 12 Volt range available for powering monitors and other devices
- Myriad of adapter plugs for near universal usage
- LED’s provide handy indication of charge level
- AC and DC chargers are included for recharging ease
- Includes 5 volt USB port for charging or powering small electronics
- On/Off switch provides positive preservation of charge level

Security Tablet Head

Features

- Versatile clam style shell mounting head with a patented tension hinge system
- Adjustable hold-down and security screws for tablet security
Carts for Large Displays

Workstations on wheels allow a nurse or clinician to have real-time access to patient information in a convenient and mobile platform while also providing a work surface and optional storage drawers that enable them to make fewer trips back and forth to the nursing station.

**Capsa VX25**

**Features**

- Offers maximum flexibility and a superior features/value relationship to make sure you get the most out of your budget
- Open platform design that accommodates the latest hardware solutions, including all-in-one PCs, laptops, thin-clients, and tablets
- Ergonomic adjustability is simple with a host of design features including tilting keyboard and Capsa’s LiftAssist™ height adjustment
- Exclusive and proven DC system to promote consistent performance and extended cord-free run times
- Antimicrobial surfaces support your infection control program
- Small footprint and slim profile ensure simple maneuvering throughout the facility
- Single-wheel casters promote smooth travel with each model including (1) locking and (1) tracking caster standard
- Flexibility to configure workstation with storage drawers including 3”, 6”, and 9” depths
- Capsa’s robust PowerWatch™ software provides a real-time view into the power system of your mobile computer carts

**Optional**

- CartWatch™ Remote Management software keeps your cart fleet security managed from a single PC location
- A host of security options including basic key access or keyless PIN with auto-relock

**Specs**

- **Base dimensions:** 16” x 17”
- **Work surface area:** 12” x 21” (with integrated forward-facing handles)
- **Work surface height:** 34.5” x 47.5”

Large LCD Cart (4 Drawers)

Features
- Drawer enclosure with 4 drawers
  Store documents, supplies, and equipment in this locking enclosure
  Two 3” drawers
  Two 6” drawers

Dimensions
- Enclosure is 18.5” wide, 12.5” deep, and 24.5” high
  Top surface is 16.5” wide, 12.5” deep (11.5” deep at center)

Weight Capacity
- Holds up to 50 lbs.
Medication Carts

TX10 Medserver

Features

- Stable, trim-line footprint for simple maneuverability
- Keyless access with auto-relocking
- Configurable medication storage with 2 bin sizes and 3 drawer sizes
- Open platform for a host of computing options including All-In-One PCs, laptops, or thin-client solutions
- Extended power system for run times of 12+ hours
- Full selection of convenience accessories and options
- Ergonomic design and PowerLift height adjustment
- Expansive work area with integrated forward-facing handle
- AutoLock™ automatically secures the cart whenever the cart remains motionless for a user-defined relock time interval of 1 to 99 minutes
- Easy-to-Edit Settings - Display screen shows messages, date and time settings, and easy-to-follow user instructions
- Override Code - Provides authorized users with a special means of access that bypasses alarms, timers, and relocking mechanisms. Typically used while the cart is being restocked by the pharmacy.
- LCD Battery Status Indicator - The extended-life battery system ensures an extra-long cycle of useful power supply with battery charge status clearly indicated in the percentage on the LCD display.

Specs

- Base dimensions: 16” x 19.5”
- Work surface area: 18” x 13” (with integrated forward-facing handles)
- Work surface height: 30” - 42”

Back mounted LCD
Anesthesia Workstation Carts

Anesthesia Workstation Carts in your busy hospital or surgery center are crucial hospital mobile carts to ensure quality medical care. During periods of high activity or in the face of an emergency, it is important to easily access an Anesthesia Supply Cart that houses the necessary anesthesia products in an organized manner.

Features

- Keyless access with automatic relocking
- User-defined relocking time delay of 1-99 minutes
- LED to indicate cart battery status
- Secondary access requirement available as option
- Bar code card access
- Mag stripe card access
- Proximity badge reader
- **User Audit Tracking:** Stores over 2,000 user events and records time/date information on the cart user. Information is easily reviewed via software loaded onto laptop PC and downloaded from cart. This feature also permits the use of over 99 unique access codes.

Accessories

- Bulk storage bins
- Sharps container
- I.V. pole
- Divided drawer tray
- Tin bin organizer
- Slide-out shelf

In Standard Height

In Compact Height
Crash Carts

Crash Carts are used in your hospital to store equipment and drugs in a hospital emergency room, intensive care unit and other areas. These carts are characterized by being easily movable and readily accessible into all sides of the cart for quickly viewing and removing equipment and drugs during a crisis situation.

Wooden Fetal Monitor Carts

Our wooden fetal monitor carts are made right here in the USA and are available in many different colors and styles. We offer four models ranging from no drawers (the FMWA 0) to three drawers (the FMWA 3). When you choose us for your medical needs it means you are dealing directly with the manufacturer so you get great quality and service with your products.

Features

- Rubber 5” wheels - tente non-marring rubber medical casters with locks
- Constructed of melamine with 3mm vinyl banding
- Drawer box made with white melamine
- Slanted monitor shelf for easier viewing of fetal monitor data
- Bottom “drawer” is open space for CPU and electronics
- Vented cabinet for proper air flow
- Cord cut-out allows for transducers to stay connected and rest in top drawer for protection
- Hidden cord chase keeps all cords inside cart for safety and added beauty
- Two full extension stainless steel ball bearing drawer glides with 100 lbs. weight rating that will not open during transport
- 1-year warranty for parts and labor

Specs

- **Height:** 42”
- **Max Width:** 24.5”
- **Max Length:** 25.5”

Available in the following styles

- Natural Oak
- English Oak
- Grove Myrtle
- Natural Maple
- Candlelight
- Summer Flame
- Wild Cherry
- Dark Cherry
Aluminum Fetal Monitor Carts

We offer four models of our aluminum fetal monitor carts ranging from no drawers (the FMWA 0) to three drawers (the FMWA 3). When you choose us for your medical needs it means you are dealing directly with the manufacturer so you get great quality and service with your products.

Features

- Can hold up to 500 lbs.
- Very customizable
- Cast aluminum is perfect for infection control
- Lifetime warranty
- Stable frame
- Drawers with ball bearing glides
- Integrated cable management
- Four 5” castors with two directional locking and two total locking

Benefits

- Choose from three heights of base frames (30”, 36”, or 42”)
- Open shelves enable flexible options for customization
- Open shelves are ideal for storing PC, monitor, and peripheral devices
I.V. Therapy Cart

The I.V. Therapy Cart line organizes the varied supplies associated with I.V. preparation. It has never been easier than with the spacious and durable workstations.

Features

• Can hold up to 500 lbs.
• Very customizable
• Cast aluminum is perfect for infection control
• Lifetime warranty
• Stable frame
• Drawers with ball bearing glides
• Integrated cable management
• Four 5” castors with two directional locking and two total locking

Vital Signs Carts

From its lightweight size to its compact footprint, the Vital Signs Mobile Workstation is a computer cart that goes wherever clinicians go. With optional drawers, barcode scanner holder, and a customizable work surface and keyboard tray, this mobile workstation adapts to clinician needs quickly.

Features

- Single hand height adjustment
- Four 4” single wheel swivel castors
- Weight: 90 lbs. with long life battery front and rear handles
- Height adjustable keyboard tray
- Tilting keyboard with ergonomically correct +/- 15 degree tilt
- Concealed cable management
- Tooled aluminum and steel with injection molded plastic
- Durable high quality powder coat finish
Infection Control Keyboards

Computer keyboards are everywhere in healthcare facilities. Today, smarter prevention and control of hospital-acquired infections (HAIs) are the driving need for an infection-control keyboard: a new generation designed specifically for medical environments.

Features

- Single hand height adjustment
- Four 4” single wheel swivel castors
- Weight: 90 lbs. with long life battery front and rear handles
- Height adjustable keyboard tray
- Tilting keyboard with ergonomically correct +/- 15 degree tilt
- Concealed cable management
- Tooled aluminum and steel with injection molded plastic
- Durable high quality powder coat finish

Features

- **Sanitize in Seconds**: flat keyboard design quickly wipes clean with hospital-grade disinfectants.
- **Audio and Visual Alerts**: indicator will flash and alert wills ound at user defined intervals to help monitor and promote good infection-control practices. Cleaning the keyboard turns off the indicators.
- **High-Speed Data Entry**: full-size keyboard enables healthcare professionals to touch-type with conventional keyboard-like performance.
- **Backlit Keys**: keyboard is usable in low-light environments to accommodate data input accuracy and reduce patient disturbance.
- **Disinfection without Disconnection**: single disable key allows connectivity while keyboard is cleaned.
Low Powered Fanless PC: ITX-100A-WINOLA

The ITX-100A-WINOLA is a low powered fanless PC that sports a speedy Dual Core Intel Atom processor and a maximum capacity of 8GB of DDR3 RAM. With 7 USB ports, connecting all of your peripheral devices is no problem.

Specs

- **Processor:** Integrated Dual-Core Intel® Atom™ Processor D525
- **Chipset:** Intel® NM10 Express Chipset
  Memory: 2 x SODIMM DDR3 800MHz; Maximum 8GB
- **Graphics:** Integrated Intel® GMA3150
  Storage: 2 x SATA 3.0 Gb/s ports
- **Communications:** Realtek® RTL8111D Gigabit LAN Controller
- **Audio:** ALC662 High Definition Audio CODEC with Blu-ray support
- **Ports:** 6 x USB (4 mid-board, 2 rear), 1 x HDMI, 1 x LAN (RJ45), 1 x D-Sub, 1 x Optical S/PDIF-Out, 1 x DC-In, 1 x 2 Jack Audio Interface

All-In-One PCs

The IPIX all-in-one has become the computer of choice for many hospitals, replacing non-medical-grade laptop and desktop PCs. The Datalux IPIX all-in-one computer was created to handle the demands of point-of-care applications in hospitals & clinics while offering a set of infection control solutions that are unique to the industry. The mobile, energy-efficient IPIX system is compliant with IEC-60601-1 requirements for use in patient care environments. Plus, the versatile VESA mount means IPIX is the perfect choice for your mobile cart, wall mount, or desktop application.

17” and 19” Specs

- **Processor**: 1.8 GHz Intel® Core™2 Duo (optional 2.2 GHz upgrade)
- **Operating System**: Windows 7 Professional (Ubuntu Linux also available)
- **Memory**: 1GB (standard), 2GB, or 4GB
- **Hard Drive**: 160GB SATA (standard), larger SATA HDDs and Solid State (32GB & 64GB) drives also available
- **LCD**: Available in 17” or 19” screen size. Resolution is 1280 x 1024
- **Video**: Intel® GMA X3100 Integrated Graphics - up to 384 MB video memory (shared)

e-Series Specs

- **Processor**: 1.6 GHz Intel® Atom™ N270
- **Operating System**: Windows 7 Professional (Ubuntu Linux also available)
- **Memory**: 1GB (standard) or 2GB
- **Hard Drive**: 160GB SATA (standard), larger SATA HDDs and Solid State (32GB & 64GB) drives also available
- **LCD**: Available in 17” or 19” screen size. Resolution is 1280 x 1024
- **Video**: Intel® GMA X3100 Integrated Graphics - up to 384 MB video memory (shared)
Tangent Medix T19B All-In-One PC

**Specs**

- **Hot Swappable Batteries.** Medix T19B is designed with three internal hot-swappable batteries. This allows the unit to operate up to 10.5 hours without interruption to maximize workflow and productivity. The optional charging station ensures unit can always be ready to run. Battery operation of the Medix T19B is just one reason to make this an ideal unit for cart installations in the healthcare environment.

- **IP65 Rated Front Panel.** Medix T19B comes standard with an IR touch screen that is IP65 rated. This rating means the front panel of the unit is sealed and protected from particle intrusion, such as dust or oil. It is also protected against low pressure water jets sprayed from any direction, so the surface can be sprayed and wiped clean without damaging the internals.

- **Antimicrobial Enclosure.** The enclosure on the Medix T19B has been factory treated with an antimicrobial additive to battle surface contamination. The additive releases silver ions that penetrate microbes and render them unable to function, grow, or reproduce. This feature makes the Medix T19B ideal for the healthcare environment where it is crucial to prevent bacteria from spreading.

- 60601 Certified
- 19" TFT-LCD 1280x1024 IR Touch Display
- **Processor:** Intel® Core™ i7
- **Memory:** Up to 8GB DDR3
- **Graphics:** Intel® HD Graphics 4000
- **Storage:** 32-64GB SSD or 250GB HDD
- Wireless 802.11 a, b, g, n and Bluetooth 3.0
- Plenty of ports for all your peripherals
Tangent Medix T24i All-In-One PC

- **IP65 Rated Front Panel.** Medix T24i comes with an optional IR touch screen that is IP65 rated. This rating means the unit is completely protected from particle intrusion, such as dust or oil. It is also protected against low pressure water jets sprayed from any direction, so the surface can be sprayed and wiped clean without damaging the internal components.

- **Antimicrobial Enclosure.** The enclosure on the Medix T24i has been factory treated with an antimicrobial additive to battle surface contamination. The additive releases silver ions that penetrate microbes and render them unable to function, grow, or reproduce. This feature makes the Medix T24i ideal for the healthcare environment where it is crucial to prevent bacteria from spreading.

- **Intel® Core™ i Series.** Designed with the latest Intel technology, the Medix T24i is ready for performance and multi-tasking. Fast and responsive, the Intel Core i Series are highly suited for the healthcare environment, where efficiency and performance work together to help practitioners deliver the best care to their patients.

- **Vesa Mounting.** Medix T24i is integrated with 100mm x 100mm VESA mounting back panel. This feature increases the number and types of locations where Medix T24i can be installed. As a cart-mounted unit, the Medix T24i is the ideal point of care solution. Mounted on a desk or ceiling arm, it is suitable for both patient rooms and nurse stations.

- **24” LCD 1920x1080 Resolution (optional IR touch with IP65 rated front panel)**

- **Processor:** Intel® Core™ i3, i5, or i7

- **Memory:** Up to 8GB DDR3

- **Graphics:** Intel® HD Graphics 4000

- **Storage:** 32-64GB SSD or 250GB HDD

- **Optional Wireless 802.11 a, b, g, n and Bluetooth 3.0**

- Plenty of ports for all your peripherals
MedXP 140 & 300 Battery Systems

Healthcare Cart lithium ion battery packs are precisely engineered by skilled technicians and rigorously tested by independent labs, with the technical support and service only a direct manufacturer can provide. The result: safe, reliable, and customizable batteries for consumers, companies, and industries.

MedXP 140 Specs

- **Maximum Capacity:** 140 Wh
- **Output Voltage:** 19V~20V
- **Maximum Output Power:** 90W
- **Fuel Gauge:** 5-Step LED
- **Run Time:** Up to 9 hours (varies by laptop and usage)
- **Charging Time:** 6 hours
- **Dimensions:** 11.25”W x .5”H x 8.25”D
- **Weight:** 3.0 lbs
- **Adapter:** 19V, 90W AC

MedXP 300 Specs

- **Maximum Capacity:** 300 Wh
- **Output Voltage:** 5V (USB), 12V, 16V, 19V, 24V
- **Maximum Output Power:** 130W
- **Fuel Gauge:** 3 Digit Display
- **Run Time:** Up to 15 hours (varies by laptop and usage)
- **Charging Time:** 6-7 hours
- **Dimensions:** 10.63”W x 1.57”H x 7.09”D
- **Weight:** 5.9 lbs
- **Adapter:** 19V, 90W AC
